

CHILLING COIN (CHC)

Whitepaper

Version1.0 - July2025

Overview

Chilling Coin (CHC) is a meme-powered, community-driven token built on the BNB Smart Chain. Designed for those who love both vibes and value, CHC blends fun, fairness, and functionality into one chill package.

With a renounced contract, locked liquidity, deflationary supply, and a rapidly growing community, CHC is more than just another meme - it's a movement.

Tokenomics

Total Supply: 1,000,000,000,000 CHC

Burned: 151,000,000,000 CHC

Airdrop Allocation: 10,000,000,000 CHC

Contract Address: 0xc50e66bca472da61d0184121e491609b774e2c37

Decimals: 18

Ownership: Renounced

Liquidity Lock Expiry: January 28, 2026

FAQ

Q: What is the total supply?

A: 1 trillion CHC, with 101B already burned.

Q: Is the contract renounced?

A: Yes, fully renounced for security.

Q: Where do I stake?

A: <https://chillingcoin-chc.github.io/CHC-Staking>

Q: Are there team wallets?

A: No. 100% fair launch.

Conclusion

CHC is a fun, fair, and transparent meme token built for the long term. With strong community backing, real burns, locked liquidity, and growing utility, CHC is more than just a vibe - it's a vision.
